ACKNOWLEDGEMENT

In the accomplishment of this project successfully, many people have best owned upon me their blessings and the heart pledged support, this time I am utilizing to thank all the people who have been concerned with this project.

Primarily I would thank god for being able to complete this project with success. Then I would like to thank my director Dr. Jatinder Kumar R. Saini and Web Technology professors Prathamesh Lahande Sir and Ms. Priyanka Rane Ma'am, whose valuable guidance has been the ones that helped me patch this project and make it full proof success. Their suggestions and their instructions have served as the major contributor towards the completion of the project.

Then I would like to thank my parents and friends who have helped me with their valuable suggestions and guidance has been very helpful in various phases of the completion of the project.

Last but not the least I would like to thank my classmates who was in this project for their valuable input.

Project divided into three phase: -

1. We use html to structure the page or set UI of page
2. We use CSS to beautify the page where we use properties like background-color, color, etc.
3. We use JS(JavaScript) to give our page logic like to toggle between dark mode and light mode.

Also,

Project divided into three parts: -

1. Separated pages of every person like home-page, login-page, etc.
2. Every person got their one artist-page
3. Every person got their one genre-page

This our home-page made by Ashish(me)

However, the Indian audience has evolved and accepted a whole new definition of Indian hip hop with artists such as Divine and Naezy.

With the massive success of ‘Gully Boy’, Zoya Akhtar’s film based on Mumbai’s rap culture, the audience has had a glimpse of

what authentic and raw street rap looks like. It revolves around the struggles of rap artists who have risen from

Mumbai’s underground rap scene brimming with stories of poverty, economic disparities, violence, social and political issues.

                <p class="img-desc">
                    Taylor Alison Swift (born December 13, 1989) is an
American singer-songwriter. Her discography spans multiple genres, and her
narrative songwriting—often inspired by her personal life—has received critical
praise.<br><br>
                    Born in West Reading, Pennsylvania, Swift moved to
Nashville at age 14 to become a country artist. She signed a songwriting deal
with Sony/ATV Music Publishing in 2004 and a recording contract with Big Machine
Records in 2005.<br><br>
                    Her 2006 self-titled debut album made her the first
female country singer to write or co-write a US platinum-certified album
entirely.Swift's next albums, Fearless (2008) and Speak Now (2010), explored
country pop.<br><br>
                    The former's "Love Story" and "You Belong with Me"
were the first country songs to top the US pop and all-genre airplay charts,
respectively. She experimented with rock and electronic styles on Red (2012),
which featured her first U.S.<br><br>
                    Billboard Hot 100 number-one song, "We Are Never
Ever Getting Back Together", and eschewed her country image in her synth-pop
album, 1989 (2014), supported by chart-topping songs "Shake It Off", "Blank
Space", and "Bad Blood".<br><br>
                    Media scrutiny inspired the urban-flavored
Reputation (2017) and its U.S. number-one single "Look What You Made Me Do".
                    <!-- Exiting Big Machine, Swift signed with Republic
Records in 2018 and released her seventh studio album, Lover (2019), followed by
the autobiographical documentary Miss Americana (2020).<br><br>
                    She ventured into indie folk and alternative rock
in her 2020 albums Folklore and Evermore, whose singles "Cardigan" and "Willow"
topped the Hot 100.
                    Swift began re-recording her first six albums after
a dispute over their masters, re-releasing two in 2021—Fearless (Taylor's
Version) and Red (Taylor's Version).<br><br>
                    The latter's "All Too well (10 Minute Version)"
became the longest song to top the Hot 100. Her tenth album Midnights (2022) and
its lead single "Anti-Hero" broke numerous streaming records.
                    Swift has self-directed music videos and films,
such as All Too Well: The Short Film (2021), and had supporting roles in others.

originated in its modern form during the mid-1950s in the United States and the
United Kingdom.
                    The terms popular music and pop music are often used
interchangeably, although the former describes all music that is popular and
includes many disparate styles.<br> <br>
                    "During the 1950s and 1960s, pop music encompassed
rock and roll and the youth-oriented styles it influenced. Rock and pop music
remained roughly synonymous until the late 1960s,

            "Rhythm and blues, frequently abbreviated as R&B or
R'n'B, is a genre of popular music that originated in African-American
communities in the 1940s.
            R&B derived from gospel, jazz, folk, and traditional
blues music and emerged in tandem with rock 'n' roll
            Soul music is a popular music genre that originated
in the African American community throughout the United States in the late 1950s
and early 1960s.
            It has its roots in African-American gospel music,
rhythm and blues.
            The term was originally used by record companies to
describe recordings marketed predominantly to urban African Americans, at a time
when "urbane, rocking, jazz based music ...
            heavy, insistent beat" was becoming more popular. In
the commercial rhythm and blues music typical of the 1950s through the 1970s,
the bands usually consisted of piano,
            one or two guitars, bass, drums, one or more
saxophones, and sometimes background vocalists. R&B lyrical themes often
encapsulate the African-American experience of pain
            and the quest for freedom and joy, as well as
triumphs and failures in terms of relationships, economics, and aspirations."

                Armaan Malik (born 22 July 1995) is an Indian
singer, songwriter, record producer, voice-over, performer, dancer and actor.
<br>
                He is known for his singing in multiple languages,
including Hindi, Telugu, English, Bengali, Kannada, Marathi, Tamil, Gujarati,
Punjabi, Urdu and Malayalam. <br> <br>

                Malik made his debut as a playback singer in the
Hindi film Jai Ho, singing "Tumko Toh Aana Hi Tha."<br>
                In 2016, he received the Filmfare R. D. Burman Award
for New Music Talent. <br>
                Malik provided the voice of Aladdin in the
Hindi-dubbed version of Disney's Aladdin, a live-action remake of the 1992 film.
<br>
                He sang "Pehla Pyaar" for the film Kabir Singh,
under the composer Vishal Mishra. <br> <br>

                Malik signed with Arista Records in March 2020, and
on March 20 of that year, he released his first English-language single,
"Control". <br>

                He became the first artist to reach No. 1 on the Top
Triller Global Billboard charts twice in 2020. <br>
                In 2021, he appeared on A. R. Rahman's single "Meri
Pukaar Suno," which was released in June 2021. <br>
                For his single "You," he won Best India Act at the
2022 MTV Europe Music Awards.
